The European Union and Its Court of Justice Anthony Arnall, 1999 This book records and analyzes the contribution the Court has made to shaping the legal framework within which the European Union operates. It examines the case law of the Court on the scope of its own powers and important constitutional questions with which it has been confronted: the relationship between Community law and national law, the impact of Community law on national remedies, the development of general principles of law and the place of fundamental rights.

Cicero: Speech on Behalf of Publius Sestius Robert A. Kaster, 2006-07-27 A new translation of, and commentary on, Cicero's defence of Publius Sestius against a charge of public violence. The speech provides any student of Rome with a fascinating way into the period and is also among the best introductions we have to traditional Republican values and ethics in action. -;A new translation of, and commentary on, Cicero's defence of Publius Sestius against a charge of public violence. Pro Sestio is arguably the most important of Cicero's political speeches that survive from the nearly two decades separating the Speeches against Catiline and the Second Philippic. Its account of recent history provides any student of Rome with a fascinating way into the period; its depiction of public meetings, demonstrations, and violence are highly pertinent. to the current debate on the place of 'the crowd in Rome in the late Republic'; the speech is also among the best introductions we have to traditional Republican values and ethics in action. -;...constantly enlightening and extremely broad in its scope... -

Contemporary Scenography Birgit E. Wiens, 2019-05-30 Contemporary Scenography investigates scenographic concepts, practices and aesthetics in Germany from 1989 to the present. Facing the end of the political divide, the advent of the digital age and the challenges of globalization, German-based designers and scenographers have reacted in a variety of ways to these shifts in the cultural landscape. The edited volume, a compilation of 12 original chapters written in collaboration with acclaimed scenographers, stage designers and distinguished scholars, offers fresh insights and in-depth analyses of current artistic concepts, discourse and innovation in this multifaceted, dynamic field. The book covers a broad spectrum of scenography, including theatre works by Katrin Brack, Bert Neumann, Aleksandar Denic, Klaus Grünberg, Vinge/Müller and Rimini Protokoll, in addition to scenography in museums, exhibitions, social spaces and in various urban contexts. Presenting a range of perspectives, the volume explores the interdisciplinarity of contemporary scenography and its ongoing diversification, raising questions relating to cultural heritage, genre and media specificity, knowledge transfer, local versus global practices, internationalization and cultural exchange. Combined with a set of stimulating examples of scenographic design in action – presented through interviews, artists' statements and case studies – the contributors develop a theoretical framework for understanding scenography as an art practice and discourse.

Kadi on Trial Matej Avbelj, Filippo Fontanelli, Giuseppe Martinico, 2014-07-11 The judgment of the European Court of Justice concerning the Kadi case has raised substantive and procedural issues that have caught the attention of scholars from many disciplines including EU law, constitutional law, international law and jurisprudence. This book offers a comprehensive

view of the Kadi case, and explores specific issues that are anticipated to resonate beyond the immediate case from which they derive. The first part of the volume sets out an analysis of the new judgment of the Court, favouring a contextual reading of what is the latest link in a judicial chain. The following three parts offer interdisciplinary accounts of the decision of the European Court of Justice, including legal theory, constitutional law, and international law. The book closes with an epilogue by Ernst-Ulrich Petersmann, who studies the role of the Kadi case in the methodology of international law and its contribution to the concept of global justice. The book brings together legal scholars from a range of fields, and discusses pressing topics such as the European Union's objective of 'the strict observance and the development of international law', the EU as a site of global governance, constitutional pluralism and the protections of fundamental rights.

The Roman Empire During The Severan Dynasty T. Brennan, Eric C. De Sena, 2013 This volume contains 20 peer-reviewed papers highlighting historical, social and cultural episodes, conditions, and trends of the Empire during the reign of Septimius Severus, the last great emperor to lead the Romans prior to the third century crisis.

The Other Side of the Coin Luisa Brunori, 2014 This text looks in depth at the psycho-socio-dynamics of poverty, at mobilizing constructive forces of groups to empower borrowers to become effective agents. The volume is grounded upon consideration of poverty as a psychological as much as an economic condition, and discusses microcredit as an innovative tool to overcome poverty in that perspective. It will pay special attention to the Grameen model considered through the special relational technology associated with it, which draws upon solidarity-lending groups and community interaction.

The Principle of Proportionality in the Laws of Europe Evelyn Ellis, 1999-03-19 This book of essays, the product of a conference held at the University of Birmingham in the spring of 1998, contains contributions from a group of extremely distinguished scholars in the fields of both public and private law. The meaning of proportionality is examined in a number of different contexts, including those of EC law, the domestic law of the Member States of the EU and the law of the European Convention on Human Rights. Its substantive content and procedural implications are analysed and contrasted, in particular, with the concept of Wednesbury unreasonableness. Its use in criminal and anti-discrimination law is also examined, as is its future likely impact in the UK after incorporation of the European Convention. Contributors: Paul Craig, Evelyn Ellis, David Feldman, Nicholas Green QC, Lord Hoffmann, Francis G. Jacobs, Jeremy McBride, Takis Tridimas, Walter van Gerven.

Jimmy Omair Ahmad,2010-12-01 In Moazzamabad, UP, too large to be a town and too backward to be a city, a young man stabs a police inspector and is beaten to death. The last words he speaks are, 'My name is Jimmy the Terrorist.' Journalists descend on the town, 'like shrill birds', and a long-time resident decides to tell a story that none of them will know. Jimmy was once Jamaal, son of Rafiq Ansari of Rasoolpur Mohalla, a Muslim neighbourhood in a Hindu town. And his story goes back a long way: to the time when Moazzamabad was named, after Aurangzeb's son; when Rafiq was seduced by the wealth and refinements of Shabbir Manzil and married Shaista; when the Hanuman temple grew ten storeys high and the head priest was elected mayor; when Shaista died, a mosque was brought down in Ayodhya and Rafiq became a mullah. As Jamaal grows up, watching both his father and his neighbourhood change and curfew reach Moazzamabad, he is changed himself. He becomes Jimmy, one among the countless marginalized trying to find a place in the world, dimly aware that the choices that shape their lives are being made in distant places, where they have no influence. Shortlisted for the Man Asian Prize 2009, this spare, compelling novel, as intimate as it is political, confirms Omair Ahmad's reputation as one of the most distinctive and exciting new voices in Indian fiction.

Expelling the Plague Zlata Blazina Tomic,Vesna Blazina,2015-04-01 A vibrant city-state on the Adriatic sea, Dubrovnik, also known as Ragusa, was a hub for the international trade between Europe and the Ottoman Empire. As a result, the city suffered frequent outbreaks of plague. Through a comprehensive analysis of these epidemics in Dubrovnik, *Expelling the Plague* explores the increasingly sophisticated plague control regulations that were adopted by the city and implemented by its health officials. In 1377, Dubrovnik became the first city in the world to develop and implement quarantine legislation, and in 1390 it established the earliest recorded permanent Health Office. The city's preoccupation with plague control and the powers granted to its Health Office led to a rich archival record chronicling the city's experience of plague, its attempts to safeguard public health, and the social effects of its practices of quarantine, prosecution, and punishment. These sources form the foundation of the authors' analysis, in particular the manuscript *Libro deli Signori Chazamorbi*, 1500-30, a rare health record of the 1526-27 calamitous plague epidemic. Teeming with real people across the spectrum, including gravediggers, laundresses, and plague survivors, it contains the testimonies collected during trial proceedings conducted by health officials against violators of public health regulations. Outlining the contributions of Dubrovnik in conceiving and establishing early public health measures in Europe, *Expelling the Plague* reveals how health concerns of the past greatly resemble contemporary anxieties about battling epidemics such as SARS, avian flu, and the Ebola virus.

Postmodern Legal Movements Gary Minda,1996-05-01 A wide-ranging and comprehensive survey of modern legal scholarship and the evolution of law in America What do Catharine MacKinnon, the legacy of Brown v. Board of Education, and Lani Guinier have in common? All have, in recent years, become flashpoints for different approaches to legal reform. In the last quarter century, the study and practice of law have been profoundly influenced by a number of powerful new movements; academics and activists alike are rethinking the interaction between law and society, focusing more on the tangible effects of law on human lives than on its procedural elements. In this wide-ranging and comprehensive volume, Gary Minda surveys the current state of legal scholarship and activism, providing an indispensable guide to the evolution of law in America.
