Innovation has long overlooked the notarial process, but its time for transformation has finally come. Remote online notarization allows documents to be notarized in electronic form with the signer signing with an electronic signature and appearing before a commissioned electronic notary online via audio-video technology. This allows anyone with an Internet connection to get documents signed and notarized online. In this book, we'll set out to describe remote online notarization and its impact. We'll also cover how you can use it, why it's more secure and accessible than traditional notarial processes, and how it's transforming an industry forever.

Once an applicant has completed all application requirements and proven that he or she is eligible, the Department will have a new certificate of commission mailed out promptly. New in 2018, notaries public can also apply for an electronic records notary public endorsement, which allows the notary to perform notarial acts on electronic documents as well as paper documents. The application process is similar to the application process for the commission, and can be done at the same time or separately.
