Behind Closed Doors Ngaire Thomas,2011-11-01 A gripping and revealing first-hand account of one family's experience in the Exclusive Brethren community in New Zealand. Ngaire Thomas grew up, married and raised her children within the Exclusive Brethren church in the Palmerston North area. In plain, non-judgemental style, Ngaire describes life inside this community with its strict rules. She says: 'By the time I was nine, I had developed an independent spirit . . . [which] usually meant that a person had begun to think for themselves rather than obeying the M.O.G. [Man of God] - an undesirable trait that needed to be dealt with.' Behind Closed Doors tells of the struggles Ngaire and her family went through in order to remain within this close but challenging community. She and her husband Denis, a very devout man, had a strong and committed marriage, raised five children and attempted to live a good life within the church. However they were eventually excommunicated and went to live 'on the outside'. Ngaire describes the trauma of adjusting to life on the outside and its devastating effects on her children. This is a fascinating window into a world that few of us will ever know - told by an intelligent and compassionate woman.

Helping the Child with Exceptional Ability Susan Leyden,2005-06-21 First Published in 1985. In view of the current fashion not to segregate children of different abilities into separate streams, teacher in ordinary schools need to have a least some knowledge of how to cope with children of exceptional ability as well as those who learn more slowly. This book is intended for such teachers and others as such as health visitors, social workers, nursery and playgroup staff, who are in contact with exceptionally able children. It is not intended as a high-powered academic text: rather it adopts a strong practical focus, it does not deal with lengthy with the problems of description and definition of giftedness, nor with the question of the validity of the subjects as a focus of study. It accepts that gifted children exist and is concerned with how their emotional, social and educational needs can be met.

The Diving Bell and the Butterfly Jean-Dominique Bauby, 2008-03-06 A triumphant memoir by the former editor-in-chief of French Elle that reveals an indomitable spirit and celebrates the liberating power of consciousness. In 1995, Jean-Dominique Bauby was the editor-in-chief of French Elle, the father of two young children, a 44-year-old man known and loved for his wit, his style, and his impassioned approach to life. By the end of the year he was also the victim of a rare kind of stroke to the brainstem. After 20 days in a coma, Bauby awoke into a body which had all but stopped working: only his left eye functioned, allowing him to see and, by blinking it, to make clear that his mind was unimpaired. Almost miraculously, he was soon able to express himself in the richest detail: dictating a word at a time, blinking to select each letter as the alphabet was recited to him slowly, over and over again. In the same way, he was able eventually to compose this extraordinary book. By turns wistful, mischievous, angry, and witty, Bauby bears witness to his determination to live as fully in his mind as he had been able to do in his body. He explains the joy, and deep sadness, of seeing his children and of hearing his aged father's voice on the phone. In magical sequences, he imagines traveling to other places and times and of lying next to the woman he loves. Fed only intravenously, he imagines preparing and tasting the full flavor of delectable dishes. Again and again he

returns to an inexhaustible reservoir of sensations, keeping in touch with himself and the life around him. Jean-Dominique Bauby died two days after the French publication of *The Diving Bell and the Butterfly*. This book is a lasting testament to his life.

Science & Islam Ehsan Masood, 2009-11-05 From Musa al-Khwarizmi who developed algebra in 9th century Baghdad to al-Jazari, a 13th-century Turkish engineer whose achievements include the crank, the camshaft and the reciprocating piston, *Science and Islam* tells the story of one of history's most misunderstood yet rich and fertile periods in science: the extraordinary Islamic scientific revolution between 700 and 1400 CE.

Sex, Politics and Society, 2014-05-22 A pioneering study which has become an established classic in its field, *Sex, Politics and Society* provides a lucid and comprehensive analysis of the transformations of British sexual life from 1800 to the present. These changes are firmly located in the wider context of social change, from industrialization and the experience of Empire through the establishment of the welfare state to the rise of new social movements, such as feminism and gay liberation, and new forms of social conservatism. Now fully revised and updated, and with a new chapter bringing the story right up to date, this new edition considers: the transformation of the sexual world through globalization and the internet the changing impact of the AIDS pandemic over the last thirty years the influence of new currents in social and cultural theory on the study of sexuality the gradual depoliticization and mainstreaming of sexuality within historical study Combining rich empirical detail with innovative theoretical insights, *Sex, Politics and Society* remains at the cutting edge of the subject and this third edition will inspire and provoke a whole new generation of readers in history, sociology, social policy, and the study of sexuality.

Histories of the Future Alan Sandison, 2016-04-30 This collection of interdisciplinary essays examines some of the ways in which writers, artists, film-makers, strategists and political thinkers have imagined the future over the last two centuries.

Although a number of contributions discuss 'mainstream' science fiction, the collection's emphasis is not on any single genre, but rather on the ways in which different histories - technological, cultural, military, ideological - generate and inform different modes of speculation about things to come. These histories also disclose that our patterns of expectation are much influenced by our relationship to the past.

The History of the Victoria Cross Philip Aveling Wilkins,1904

The Elements of Style William Strunk Jr.,2023-10-01 First published in 1918, William Strunk Jr.'s *The Elements of Style* is a guide to writing in American English. The book outlines eight elementary rules of usage, ten elementary principles of composition, a few matters of form, a list of 49 words and expressions commonly misused, and a list of 57 words often misspelled. A later edition, enhanced by E B White, was named by Time magazine in 2011 as one of the 100 best and most influential books written in English since 1923.

Writing With Power Peter Elbow,1998-07-09 A classic handbook for anyone who needs to write, *Writing With Power* speaks to everyone who has wrestled with words while seeking to gain power with them. Here, Peter Elbow emphasizes that the essential activities underlying good writing and the essential exercises promoting it are really not difficult at all. Employing a cookbook approach, Elbow provides the reader (and writer) with various recipes: for getting words down on paper, for revising, for dealing with an audience, for getting feedback on a piece of writing, and still other recipes for approaching the mystery of power in writing. In a new introduction, he offers his reflections on the original edition, discusses the responses from people who have followed his techniques, how his methods may differ from other processes, and how his original topics are still pertinent to today's writer. By taking risks and embracing mistakes, Elbow hopes the writer may somehow find a hold on the creative process and be able to heighten two mentalities--the production of writing and the revision of it. From students and teachers to novelists and poets, *Writing with Power* reminds us that we can celebrate the uses of mystery, chaos, nonplanning, and magic, while achieving analysis, conscious control, explicitness, and care in whatever it is we set down on paper.
